To whom it may concern,

Since 2022, Children of One Planet has been dedicated to fostering a social, safe, and healthy community environment through its classes offered during our departments programming including Parks After Dark and Everybody Plays. They have also provided arts and culture programming through the County's Contract Class Program.

LA County Parks and Recreation has been satisfied with the services provided by Children of One Planet and look forward to utilizing their services in 2024.

I can confirm that Children of One Planet has applied to become a Core Partner through the Core and Community Partner Program. Upon successfully meeting all program requirements, Children of One Planet would be granted access to utilize both Loma Alta Park and Charles Farnsworth Park to conduct their programs.

Programming provided by Children of One Planet includes instruction in dance, musical instruments, and yoga. These programs are designed to strengthen mental and physical health as well as improve social skills for children and their families.
